Greenmarket GIS Volunteer

Greenmarket, GrowNYC (formerly Council on the Environment of NYC)
100 Gold Street, Suite 3300, NY, NY 10038

Greenmarket Organization Information

Greenmarket is a program of GrowNYC. Greenmarket's mission is to promote regional agriculture and ensure a continuing supply of fresh local produce for New Yorkers. Greenmarket supports farmers and preserves farmland for the future by providing regional, small family farmers with opportunities to sell their fruits, vegetables and other farm products to New Yorkers.

Position Summary

Reporting to the Greenmarket Assistant Director, this volunteer position requires proficiency in Geographic Information Systems, or GIS, software. The Greenmarket GIS Volunteer must understand geocoding in order to create shape files for various food programs across the city and farm locations across the region. Some maps require only updating while some require more intensive data management. Graphic design skills a big plus. GIS software is available at the GrowNYC office, but the work can also happen remotely. This is an unpaid volunteer position with flexible hours.

Projects may include:

- Citywide map of GrowNYC food programs
- Map of Greenmarkets with SNAP sales numbers
- Citywide map of Greenmarket Co. customers
- Regional map of Greenmarket Co. farmers

The volunteer should have up-to-date knowledge of relevant data sources and appropriate file types.
We anticipate these projects to require approximately 60 hours and appreciate a quick turnaround.

Please email qualifications and a work sample to chuber@grownyc.org.
