EBT/Food Stamps Accepted at ALL Youthmarkets

Young people in the Youthmarket program are learning about nutrition, healthy eating, and gaining small business skills. Most importantly, they become ambassadors of healthy eating in their neighborhoods, where many people suffer from diet-related illnesses such as diabetes, heart disease, and obesity.

The produce sold at Youthmarket stands is sourced from Greenmarket farmers, bringing additional revenue to regional family farms while getting fresh, healthy food into neighborhoods that need it most.
