Before going to the cafeteria waste sorting station
OPEN SPORK SET so the 3 items are easy to sort.
REMOVE ALL FOOD from packaging: plastic bags, plastic wrap, and aluminum foil.

**RECYCLABLES**
Empty cartons, cans, bottles, foil, and hard plastics go into the blue bin.

**ORGANICS**
Organic materials like: food scraps, napkins, paper bags, cardboard boxes, and compostable plates are placed into the brown bin.

**TRASH**
ALL soft plastics like: plastic bags, juice pouches, sauce packets, wrappers, go into the gray bin.

KEEP SIMILAR MATERIALS TOGETHER on your plate because having presorted items saves time! 😊
